AR-5520S

Speedy Copying with SOPM

The AR-5520S/5516S's Scan Once/Print Many (SOPM) function stores a scanned original into memory to quickly produce up to 999 copies of each page at a continuous copy rate of 20/16 cpm. Plus, their quick first copy time of 7.2 seconds saves valuable time when performing multiple short-run jobs.

Timesaving 40-Sheet SPF (option)

For copying productivity, the AR-5520S/5516S can be equipped with the optional AR-SP10 Single Pass Feeder (SPF). It eliminates the tedious task of placing pages by hand and allows you to automatically make copies from a stack of up to 40 originals.

Convenient Built-in Printing

The AR-5520S/5516S incorporates Sharp Printer Language with Compression (SPLC) technology to effectively reduce the data size of print jobs, speeding up the transfer of data. A number of convenient printing functions are also available.

AR-5520S/5516S
