Plain Paper Facsimile

The Plain Paper Facsimile
with Just the Right Features for SOHO Use

Extra Long
200-Meter Imaging Film

200-Sheet
Paper Capacity

Large 2MB
Memory and Backup

FO-1550

Plain Paper Facsimile

Other Key Features

- **6-second transmission***2 and **14.4 Kbps modem** contribute to productive operation and reduced phone line charges
- **Key Lock** and **Print Hold** security functions ensure confidentiality
- **220 auto dials** (200 two-digit and 20 one-touch settings) allow quick access to frequently used destinations
- **20-sheet***1 **auto document feeder** eliminates the need to hand feed pages one by one
- **Duplex scanning** (manual) scans, collates in memory, and transmits two-sided originals in the proper page order

- Caller ID ready*3
- Anti-junk fax
- Polling
- Multi copy with sorting
- Error correction mode
- Electronic telephone directory
- Timer operation
- On-hook dial
- Help function

200-Meter-Long Imaging Film

The FO-1550 uses Sharp Genuine FO-20CR Imaging Film. At an extra-long 200 meters, this imaging film can print approximately **630 pages** of A4-size faxes and doesn't need frequent replacement.

200-Sheet Paper Capacity

The FO-1550 features a large paper capacity of 200 sheets*1. This gives you more time between refills and means there's less chance the machine will run out of paper while you're away from the office or in the middle of receiving a fax.

Large 2MB Memory and Backup

The FO-1550 boasts a large **2MB memory**, which can hold up to approximately **100 pages***2 of documents for memory-based functions. The **substitute reception** function, for example, automatically receives incoming faxes into memory when the FO-1550 is out of paper or imaging film. And the **memory transmission** function stores documents in memory for transmission at a later time or when the phone line is free, allowing the originals to be quickly returned to the user. And thanks to the **flash memory backup**, documents remain safely backed up in memory, even in the event of a power failure.

Supplies

FO-20CR Imaging Film

Only Sharp Genuine Supplies are designed to get the best performance out of Sharp products.

Specifications

Applicable line	Public switched telephone network
Type	Desktop facsimile transceiver
Data compression	MH/MR/MMR
Transmission time	Approx. 6 seconds*2
Modem speed	14,400 bps to 2,400 bps with automatic fallback
Resolution	Horizontal: 8 pels/mm Vertical: 15.4 lines/mm (Superfine) 7.7 lines/mm (Fine/Halftone) 3.85 lines/mm (Standard)
Max. document width	216 mm
Max. scanning width	208 mm (letter), 202 mm (A4)
Paper size (W x L)	A4 (210 x 297 mm) or letter/legal*4
Power requirements	Rated local AC voltage and frequency
Power consumption	1.8 W (standby, only when Caller ID*3 is set to NO)
Dimensions (W x D x H)	365 x 280 x 482 mm with paper tray
Weight	Approx. 4.6 kg

*1: 80 g/m² A4

*2: Based on Sharp's standard chart at standard resolution. Transmission time may vary depending on the communication environment.

*3: Available in certain regions only. Consult your local phone company for service availability and compatibility.

*4: To switch from A4 to letter/legal, have the A4 paper guide removed by a service technician. Design and specifications are subject to change without prior notice. Facsimiles cannot be used in countries other than those where they were purchased.
